Title

cafe.connor.fun: A Coffee Oriented AR Game

Description

cafe.connor.fun is a webapp for improving café discovery. Users will be able to use the app to find nearby cafes that they haven't visited. The app will gamify café-visitation by awarding points to users when they visit cafes.

The app will also provide café ratings so users can make informed decisions about what cafes to visit

Actors

Coffee Hipsters (Users)

Functionality

1. Users can create accounts
2. Users can login
3. Users can browse nearby Cafes
4. Users can see details of Cafes
5. Users can check-in when they're at a Café
6. Users receive points for checking in at new Cafes
7. Users can view their account
8. Users can view high score tables

Stretch functionality

1. Users can rate cafes via coffee specific categories (like by drink or roast)
2. Users can view café ratings
